

Juyong Jiang

🏠 juyongjiang.work

✉ csjuyongjiang@gmail.com | 📱 [juyongjiang](#)

Education

- **Hohai University (HHU)** **Nanjing, China**
B.Eng. in Computer Science and Technology
GPA 88.76/100 (rank 8/107) *08/2016--07/2020*

Research Experience

- **Image & Video Analysis Group, National Laboratory of Pattern Recognition(NLPR), Institute of Automation, Chinese Academic of Sciences** **Beijing, China**
Research Intern *10/2019--Present*
 - Worked on instance segmentation in images & videos, supervised by Prof. [Jing Liu](#).
- **Department of Computer and Information Sciences, Temple University** **Philadelphia, US**
Research Intern *08/2019--02/2020*
 - Worked on natural language processing, supervised by Prof. [Kai Zhang](#).
- **Pervasive Computing Lab, College of Computer Science and Technology, Zhejiang University,** **Hangzhou, China**
Research Intern *07/2019--08/2019*
 - Worked on spatiotemporal data mining in smart cities based on deep learning, supervised by Prof. [Ling Chen](#).
- **AI Development Group, College of Internet of Things Engineering, Hohai University** **Nanjing, China**
Research Assistant *08/2018--07/2020*
 - Worked on application development based on deep learning, supervised by Prof. [Jianjun Ni](#).

Publications

- **Juyong Jiang**, Jie Zhang and Kai Zhang. "Cascaded Semantic and Positional Self-Attention Network for Document Classification." In Proceedings of the Conference on Empirical Methods in Natural Language Processing (*EMNLP*), 2020. (Submit)
- Junfeng Chen, **Juyong Jiang**, et al. "A fault diagnosis system for rail transit platform doors based on deep learning." Chinese Patent. 201910613949.1.
- Jianjun Ni, **Juyong Jiang**, et al. "Bank card number positioning and recognition end-to-end method based on CNN and RNN." Chinese Patent. 201910933476.3.
- Junfeng Chen, **Juyong Jiang**, et al. "Multi-regional precipitation prediction model construction method based on multi-graph convolution and memory network." Chinese Patent. 201911362437.9.

Selected Projects

- **Video & Image Instance Segmentation Based on Deep Learning. (03/2020--Present)**
 - Predict both the location and the semantic mask of each instance in an image & video.
 - Add the module of ASPP, CoordConv, DCN, Global Pooling, Self-Attention, etc. on baseline framework to solve some problems and improve performance.
 - ✓ *IVA, NLPR, CASIA & HuaWei.*
- **Spatiotemporal Attention Probes Mechanism (09/2019--02/2020)**
 - Establish Spatiotemporal Graph.
 - Use Query as a seed and then use the Markov Random Walk, Random Walk with Restart, Page Rank, etc. on Spatiotemporal Graph to form the interaction of neighborhood.
 - Combine the node information in the neighborhood to generate polarity features.
 - ✓ *Temple University & Fudan University.*
- **Spatiotemporal Data Mining in Smart Cities Based on Deep Learning. (07/2019--08/2019)**
 - Encode the non-Euclidean pair-wise correlations among regions into multiple graphs and then explicitly model these correlations using multi-graph convolution network.
 - Augments recurrent neural network with a contextual-aware gating mechanism to re-weights different historical observations.
 - ✓ *College of Computer Science and Technology, Zhejiang University.*
- **Bank Card Recognition System Based on Deep Learning. (03/2019--07/2019)**
 - Data augmentation by using random cropping, rotation, various transformation, blur and noise.
 - Using CTPN & CRNN model to locate and recognize bank card number, respectively.
 - Developing a web page and an android app to display and use.
 - ✓ *College of Internet of Things Engineering, Hohai University.*

Selected Awards & Honors

- Outstanding Bachelor Thesis in Jiangsu Province (**only 2 papers** in Department of Information), 2020.
- Excellent Bachelor Thesis Award in Hohai University (**5%**), 2020.
- Outstanding Student Honor in Hohai University (Two times), 2019, 2020.
- Top 10 Outstanding students in Hohai University, 2018.
- Excellent Grades in Trash Classification Challenge Cup of Huawei Cloud Artificial Intelligence Contest, 2019.
- National Encouragement Scholarship, 2018.
- Research and Innovation Excellent Scholarship in Hohai University, 2020.
- Spirtual Excellent Scholarship in Hohai University (Two times), 2019, 2020.
- Academic Excellent Scholarship in Hohai University (Four times), 2017, 2018, 2019, 2020.

Mathematical Ability

- 2nd Prize for Certificate Authority Cup Mathematical Modeling Online Challenge, 2020.
- Honorable Mention for Mathematical Contest in Modeling, 2018.
- Honorable Mention for Certificate Authority Cup International Mathematical Contest in Modeling, 2017.
- Excellent academic grades in all mathematic curriculum. (Advanced Mathematics-A, Linear Algebra-A, Probability and Statistics-A, Mathematical Modeling-A, Numerical Analysis and Computing-A, Discrete Mathematics-A, Data Structure and Algorithms-A)
- Member of Hohai Mathematical Modeling Lab

Skills

Programming	C / C++, Matlab, Java, Python
Web	HTML / CSS, JavaScript, JSP, PHP
OS	Linux
Framework	Tensorflow, Pytorch
